Constitution

We discussed proposed updates to the constitution which were shared before the meeting. The main changes are:

- The change of name to Cycle Chesterfield
- The addition of a process for removing members who do not uphold the reputation, aims and objectives of the organisation.
- Addition of Corporate membership
- Simplification of committee members and roles to meet our current needs

The constitution changes were unanimously approved.

We will post the constitution to the website so it's available to all members.
